

## Recommended Internet Explorer Settings for Powerschool

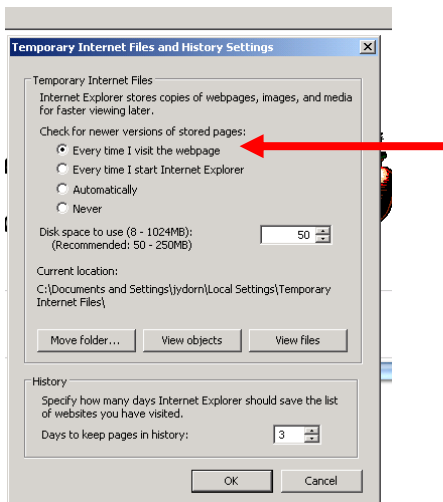

1. You should make the following settings in Internet Explorer to turn off unnecessary security warning messages that are displayed eachtime you use PowerSchool or PowerGrade.

Open Internet Explorer

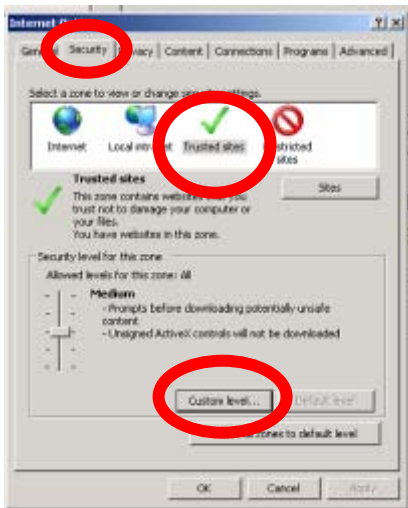

Select **Internet Options** from the **Tools** menu

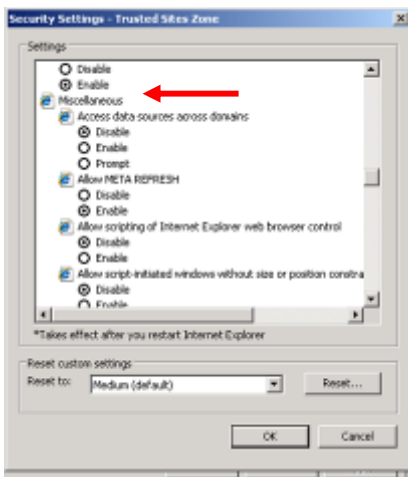

Click the General tab and then click on the **Browsing history Settings** button. Then click the Every time I visit the webpage. Click **OK**

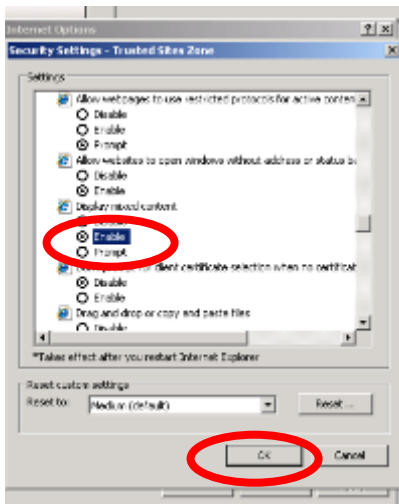

Click the **Security** tab and then click on the **Trusted Sites** icon as shown below. Then click the **Custom Level** button.

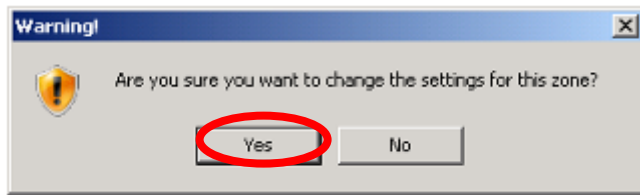

The Security Settings windows will be displayed.  
Scroll down to the **Miscellaneous** section.

Continue to scroll down until you come to **Display Mixed Content**. Make sure the **Enable** button is selected. Click **OK**

Click  **YES** when prompted

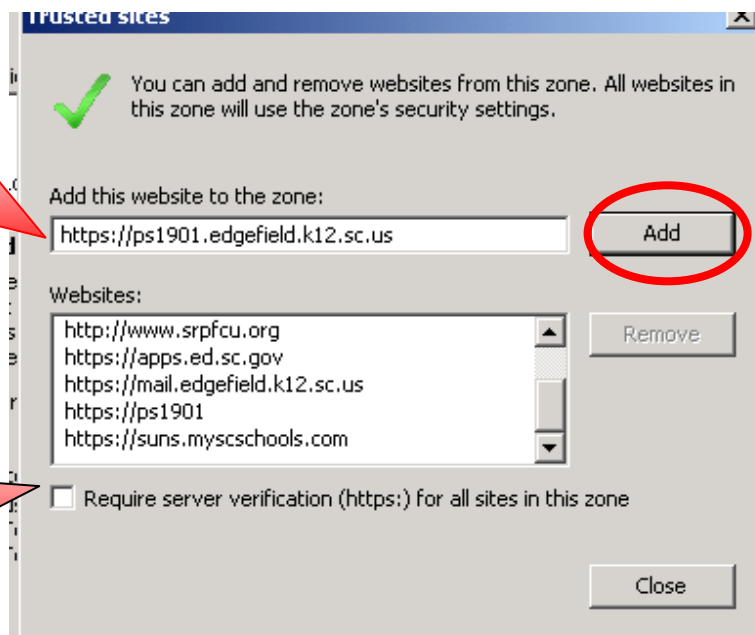

2. Add PowerSchool to the Trusted Sites list.  
Click the **Sites** button as shown below

The Trusted Sites window will be displayed.

Type the PowerSchool IP address <https://ps1901.powerschool.k12.sc.us> in the Add box and then click **Add**.

Type the PowerSchool IP address in the **Add** box

Remove the check mark from the require server verification box.

Click **OK** again and then restart your computer.
